

## **PLAN FOR EXPERIENCE FOR PEDIATRIC RESIDENT**

### **Week 1-2:**

Day 1: a.m. orientation to DHS experience  
p.m. begin orientation in disease control

Day 2-10: Continue meeting staff and participate in ongoing disease control activities. Perhaps do a short project.

### **At the end of the two weeks you should:**

- Be able to describe what a health department does
- Understand what happens when a disease is reported to the health department
- Know whom to call for disease control questions

### **Week 3:**

Day 1: Orientation to CHDP and CCS

Day 2-5: Participate in CHDP and CCS activities:

- Visit(s) to CHDP provider office
- Participate in CCS eligibility process
- Visit a CCS outreach activity
- Visit a CCS Medical Therapy Unit

### **At the end of the week you should:**

- Be able to describe the CCS and CHDP programs
- Know how a pediatrician can participate in these programs
- Be able to explain how these programs help children

## **PLAN FOR EXPERIENCE FOR PEDIATRIC RESIDENT (cont'd)**

### **Week 4:**

Day 1: Orientation to in-home services for children

Day 2-5: Make home visits with public health nurses

- Do home visits for prenatal, neonatal, and infant/toddlers enrolled in the Public Health Nurse Visitation Program
- Do visit with team seeking source for lead poisoning in a child
- Do visit with nurse doing communicable disease investigation

### **At the end of the week you should:**

- Be able to describe some home visiting strategies for helping families towards health
- Understand the role of the Public Health Nurse and how s/he can help the pediatrician
